

End of Life Notice

ClearCanvas Workstation Personal Editions V 1-13.0

Dear Members of the ClearCanvas Workstation Community,

In December 2014, Synaptive Medical Inc. acquired certain assets of ClearCanvas Inc., which included the product known as Workstation Personal Edition.

Synaptive strives to maintain high standards of service and regulatory compliance for all of the products we support. With that in mind, we wish to notify you that all versions of ClearCanvas Workstation Personal Edition prior to version 13.0 will reach the end of their product life cycle effective August 25, 2017. This includes discontinuing all support activities for the affected product versions.

We look forward to continuing to meet your needs for a Medical Imaging workstation. During this transition period, we encourage you to consider purchasing the most recent ClearCanvas Workstation Personal Edition application (version 13.1) to benefit from recently updated features. Please refer to the [ClearCanvas v13.1 Personal Edition Release Notes](#) for further details.

We thank you for choosing ClearCanvas, and we renew our commitment to supporting your business and various projects. If you have any questions, please contact us at service@synaptivemedical.com.

Sincerely,

The Synaptive team
